<b>Description</b>			
I cannot attach anything anywhere on a clean install of either 0.6.3 or trunk. My production.log is attached, and there is little other information I can give, apart from being on Rails 2.0.2 and Ruby 1.8.5 on Linux.			

History

#1 - 2008-02-03 18:07 - Geoffrey Sneddon

Trying to attach the production.log caused an error. Looks like the bug exists here as well.

#2 - 2008-02-03 18:20 - Jean-Philippe Lang

- File production.log added

Seems to be ok for me (file is attached). What browser are you using ?

#3 - 2008-02-03 18:25 - Jean-Philippe Lang

- Status changed from New to Closed

OK, I found the problem. The error occurs if the browser does not set the content type for the attachment.  
Fixed in [r1115](#).

Thanks for the feedback.

#4 - 2008-02-03 20:26 - Geoffrey Sneddon

Safari 3; thanks for fixing it so quickly, and thanks for developing the first bug tracker I've ever been happy using.
