- Status changed from New to Resolved

Please ask a question at the forum below
http://www.redmine.org/projects/redmine/boards/2

Anyway, the answer is that you can see the redmine version at Administration/Information page if you are an administrator.

I think that version of redmine must be available for all users and that's why footer text may contain this information as well:

Powered by **Redmine** © (svn 3892) 2006-2010 Jean-Philippe Lang

or

Powered by **Redmine** © (ver 1.0.0) 2006-2010 Jean-Philippe Lang

or somehow else.

This way users can test demo version of redmine online and report issues and feature requests with revision or version mentioned.

Agreed.
It is better to show the Redmine version for all users.

But the subject of this issue should be changed like "Show the Redmine version for all users".

#5 - 2010-07-27 02:17 - Gary Mueller

This duplicates [#1271](). Basically the answer is that this change would represent a security vulnerability and as such has been rejected previously

#6 - 2010-07-27 09:56 - Felix Schäfer

- Status changed from Reopened to Closed

- Resolution changed from Invalid to Duplicate

This is not going into core for the reasons discussed on [#1271]().
