Redmine - Defect #5985

Only hold one role at a time in a project

2010-07-29 03:29 - Michael Koch

Status:	Closed	**Start date:**	2010-07-29
Priority:	Normal	**Due date:**	
Assignee:		**% Done:**	0%
Category:		**Estimated time:**	0.00 hour
Target version:			
Resolution:	Wont fix	**Affected version:**	

Description

I've noticed many users will assign themselves and others to multiple roles when they setup a project. It would be useful if users could only be assigned to one role at a time, making the functionality of Redmine more apparent

History

#1 - 2010-07-29 03:31 - Michael Koch

related to [#4814](http://www.redmine.org/issues/4814)

http://www.redmine.org/issues/4814

#2 - 2010-07-29 23:01 - Holger Just

Up to Redmine 0.8.x, a user could only have exactly one role in a project. This way changed in Redmine 0.9 and higher to allow more fine-grained roles.

#3 - 2010-08-06 02:01 - Eric Davis

- Status changed from New to Closed

- Resolution set to Wont fix

Redmine allows multiple roles so you can have more control over each user's permissions. For example:

- Client role with the permission to edit issues
- File Manager role with the permission to upload files

If you give one user both roles, they can edit issues and also upload files.
