

Redmine - Feature #5990

Email notification should reflect user language setting

2010-07-29 15:36 - Lubor Nosek

Target version:	
Resolution: Fixed	
Description	
<p>Currently email notification is sent only in default redmine language settings but should respect each individual user language setting.</p> <p>We have default language Czech but in one project we have to communicate in English but all notifications to our english speaking user go out with Czech translations.</p>

I just started using redmine and this is also an issue for us, we work in english and russian and it would be nice if users would get email in there preferred language.

This issue was submitted over 4 years ago and seems it's still have no solution.

As somebody already noted we also work with clients over Western Europe and North America and it was great that during Redmine installation process we used an English version. However, our clients from countries like Germany or Switzerland prefer to receive notifications in German. And Vice Versa,- one of our partners from Germany installed his Redmine instance in German therefore we can't receive notifications in English.

All this makes our Redmine communication a bit complicated. I believe that not only **user interface** but also **notifications** must be translated **according to the user account preferences** and it is important **i18n** task!

+1! I'm the only English dev working on a Japanese team!

#12 - 2016-04-04 12:20 - Arun Chaitanya Miriappalli

+1 Working with a Japanese company too!

#13 - 2016-12-07 10:32 - Sven E.

+1 Working with an international Team now, and all eMails use german text.

#14 - 2017-09-03 08:30 - Go MAEDA

#26791 can realize this request.

#15 - 2017-09-03 08:30 - Go MAEDA

- Related to Feature #26791: Send individual notification mails per mail recipient added

#16 - 2018-11-30 11:21 - Go MAEDA

- Duplicated by Feature #12239: Translateable Notifications added

#17 - 2018-11-30 14:11 - Marius BALTEANU

- Related to deleted (*Defect #8137: HTML email doesn't obey directionality of locale*)

#18 - 2018-11-30 14:11 - Marius BALTEANU

- Duplicated by *Defect #8137: HTML email doesn't obey directionality of locale added*

#19 - 2019-02-11 01:23 - Go MAEDA

- Status changed from *New to Closed*

- Resolution set to *Fixed*

Implemented in Redmine 4.0.0 (#26791).
