

## Redmine - Feature #6033

### Allow addition/removal of subtasks to show in parent's history

2010-08-04 16:50 - Mark P

<b>Resolution:</b>	Fixed		
<b>Description</b>			
<p>The subtask feature has been working as expected. When I remove a parent from a child, that change is captured in the child's history, but it does not appear in the parent's history. I think it would be really handy to be able to see from the parent's perspective, how many child issues came and went. Seeing history like this viewing from the child up to the parent is a tad cumbersome. Hopefully, that makes sense.</p> <p>Bravo Zulu on Redmine.</p>

#### Associated revisions

##### Revision 21273 - 2021-11-08 15:22 - Go MAEDA

Allow addition/removal of subtasks to show in parent's history (#6033).

Patch by Yuichi HARADA.

##### Revision 21274 - 2021-11-08 15:24 - Go MAEDA

Update locales (#6033).

#### History

##### #1 - 2018-01-04 12:50 - Go MAEDA

- *Category set to Issues*

##### #2 - 2019-08-16 04:25 - Yuichi HARADA

- *File 6033\_subtasks\_show\_in\_parent\_history.patch added*

Display the addition / deletion of subtask issues in the parent issue's history block.

I attached a patch.

##### #3 - 2019-08-18 15:00 - Go MAEDA

- *Target version set to Candidate for next major release*

##### #4 - 2019-09-16 14:43 - Go MAEDA

- *Subject changed from Allow removal of child subtasks to show in parent's History block to Allow addition/removal of subtasks to show in parent's History block*

- Target version changed from Candidate for next major release to 4.1.0

Setting the target version to 4.1.0.

**#5 - 2019-09-28 00:33 - Go MAEDA**

- Target version changed from 4.1.0 to 4.2.0

**#6 - 2021-03-25 08:31 - Marius BALTEANU**

- Target version changed from 4.2.0 to 5.0.0

**#7 - 2021-09-05 14:16 - Go MAEDA**

- File 6033\_subtasks\_show\_in\_parent\_history.patch added

Update the patch for the latest trunk (r21204).

**#8 - 2021-10-02 08:40 - Go MAEDA**

The patch breaks an existing test. This is because patched Redmine sends an email notification when a journal that records the addition or removal of a subtask is added.

Error:

MailHandlerTest#test\_add\_issue\_should\_send\_notification:

NameError: undefined local variable or method `byebug' for #<MailHandlerTest:0x00007fd3f69b1d98>

test/unit/mail\_handler\_test.rb:438:in `test\_add\_issue\_should\_send\_notification'

rails test test/unit/mail\_handler\_test.rb:431

**#9 - 2021-10-05 02:29 - Yuichi HARADA**

- File 6033\_subtasks\_show\_in\_parent\_history-v2.patch added

[...]

I have confirmed that the test fails. I fixed test/unit/mail\_handler\_test.rb as follows.

```
diff --git a/test/unit/mail_handler_test.rb b/test/unit/mail_handler_test.rb
