Redmine - Defect #6056

Bulk copying of issues does not preserve relations

2010-08-06 11:31 - Anonymous

Status:	Closed		**Start date:**	2010-08-06
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	Issues		**Estimated time:**	0.00 hour
Target version:				
Resolution:	Duplicate		**Affected version:**	

Description

When bulk copying a set of issues, relations between issues are lost.

Example:

500: Issue A <parent_issue_of> **501: Issue B**

after **copying** these issues (to another project), i would expect to see there:

502: Issue A <parent_issue_of> **503: Issue B**

But the relationship is lost.

History

#1 - 2011-07-20 23:58 - Etienne Massip

- Target version set to Candidate for next major release

More like a feature to me.

#2 - 2011-10-20 14:27 - Etienne Massip

- Status changed from New to Closed

- Target version deleted (Candidate for next major release)

- Resolution set to Duplicate

Closed as duplicate of [#4403](#).

#3 - 2011-10-20 22:09 - Mischa The Evil

Etienne, to me it looks like this issue is a duplicate of [#8376](#) instead of [#4403](#) since the author describes the problem specific to the parent-relationship between issues.
