| <p>I would like to see a plugin which integrates <a href="#">Fitnessse&amp;#38;Slim Acceptance Test Framework and Server</a> into redmine. This way the input comes for test cases comes from redmine wiki site and the result fpr the tests is rendered back to wiki site frame.</p> |                |                        |            |
