

Redmine - Feature #6112

Accept localized keywords when receiving emails

2010-08-11 20:51 - Enderson Maia

Status:	Closed	Start date:	2010-08-11
Priority:	Normal	Due date:	
Assignee:	Jean-Philippe Lang	% Done:	0%
Category:	Email receiving	Estimated time:	0.00 hour
Target version:	1.1.0		
Resolution:	Fixed		
Description			
Redmine should allow me to send and e-mail using "Atribuído para:" instead of "Attributed to:" to attribute an issue to some user. pt-BR and en respectively.			
This should work for every keyword in MailHandler.

Associated revisions

Revision 4395 - 2010-11-12 13:29 - Jean-Philippe Lang

Makes MailHandler accept localized keywords for default or user language (#6112).

History

#1 - 2010-11-11 17:57 - Jean-Philippe Lang

- Tracker changed from Defect to Feature
- Subject changed from MailHandler should consider i18nED keywords to Accept localized keywords when receiving emails
- Assignee set to Jean-Philippe Lang
- Target version set to 1.1.0

#2 - 2010-11-12 13:25 - Jean-Philippe Lang

- Status changed from New to Closed
- Resolution set to Fixed

Change done in [r4395](#). You can now use keywords just like they appear on the Redmine UI. The default language and the language of the user who sent the email are accepted.
