

## Redmine - Patch #613

### Asynchronous email delivery

2008-02-06 12:44 - eneko taberna

<b>Status:</b>	Closed	<b>Start date:</b>	2008-02-06
<b>Priority:</b>	Low	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>	Email notifications	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	0.9.0		
<b>Description</b>			
<p>As suggested at <a href="http://www.datanoise.com/articles/2006/7/14/asynchronous-email-delivery">http://www.datanoise.com/articles/2006/7/14/asynchronous-email-delivery</a> , the email delivery delay experienced by users can be almost eliminated creating a new Thread to handle the delivery.</p> <p>This code at the public part of Mailer.rb model is the most simplistic way to achieve it :</p> <pre>@alias_method :old_deliver, :deliver! unless method_defined?(:old_deliver)  def deliver!()   Thread.start(mail) do  email      old_deliver   end end</pre>

### History

#### #1 - 2009-03-07 17:45 - Jean-Philippe Lang

- Status changed from New to Closed
- Target version set to 0.9.0

Added in r2339. Use :async\_smtp instead of :smtp to enable asynchronous email delivery.
