

Redmine - Defect #6130

Subtask with 0% sets rollup to 0%

2010-08-13 08:18 - Howard Mall

Status:	Closed	Start date:	2010-08-13
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Issues	Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:	No feedback		
<b>Description</b> If you have any subtasks with 0% complete the parent task will be set to 0% regardless of the percent complete of the other subtasks. <ul style="list-style-type: none"><li>MySQL 5.0.90-community-nt</li><li>Ruby 1.8.7 (2008-08-11 patchlevel 72)</li><li>Rails 2.3.5</li><li>1.0.0-RC</li></ul>			

History

#1 - 2010-08-14 01:06 - Mischa The Evil

I'm not able to reproduce this issue on the Redmine demo site.

See e.g. [http://demo.redmine.org/projects/issue6121-2-1/issues?query\\_id=509](http://demo.redmine.org/projects/issue6121-2-1/issues?query_id=509). Here you can see that issue 28762 has two subtasks (28763 and 28846) with each a different %-done ratio (one 0% and the other 100%).  
As expected issue 28762 has a %-done ratio of 50% (see <http://demo.redmine.org/issues/28762>).

Can you be more precise in the steps how to reproduce this error?

#2 - 2010-09-20 02:37 - Mischa The Evil

- Status changed from New to Closed
- Resolution set to No feedback

Please reopen if this issue somehow persists.
