Is duplicate of Redmine - Feature #1006: Display thumbnails of attached images	**Closed**	**2008-04-07**

History

#1 - 2010-08-25 07:33 - Jean-Baptiste Barth

- Status changed from New to Closed

- Resolution set to Invalid

Please go to the demo site to test Redmine

#2 - 2010-08-25 07:35 - Jean-Baptiste Barth

- Status changed from Closed to Reopened

- Resolution deleted (Invalid)

Hm sorry, I think I closed this one too quickly. Can you be a bit more explicit about what you want to do ?

#3 - 2010-08-25 15:17 - Alexander A

- File i.png added

- File f.png added

- File s.png added

- File s-2.png added

- File b.png added

Regularly, at creation of a new issue or new project, is necessary to insert the image into page !! , instead of simply to attach.
But if the width of a image is more than width of a column the picture breaks imposition as here: http://www.redmine.org/issues/6204
I suggest to solve this problem so: at an image insert it automatically decreases for page till width of page, and at prompting on a picture there is a cursor-magnifier, at a clique on which the full size in a new layer opens.
