Target version:			
Resolution:	Duplicate		
<b>Description</b> Redmine allows the creation of a subtask through the "Add" button in the "Subtasks" section of a task.  What about assigning an existing task as a subtask? Yes, why not? I tend to create the subtasks individually first, and then create their parent and assign them.  I think a drop down menu ala "related issues" is required			
<b>Related issues:</b> Is duplicate of Redmine - Feature #5484: Add new issue as subtask to an exist... <div>Closed2010-05-09</div>			

History

- Status changed from New to Closed
- Resolution set to Duplicate

[#5484](#) is (mainly) the same request, and has a patch to show the "parent issue" field in the issue form for new issues and in the "more" pane when updating issues.
