Description

On the roadmap page, it would be great if there was some kind of visual indication of sub-issues, i.e. if Feature 101 has sub-issues 102, 103 and 104, then the roadmap would show:

feature 100

-feature 101 |-feature 102 |-feature 103 |-feature 104

feature 105

If this could also be collapsible (with a remembered "collapse all" tickbox somewhere), that would rock.

Hmm, should've previewed before posting.

The example should look like this:

feature 100

- feature 101

| - feature 102

| - feature 103

| - feature 104

feature 105

This is the one thing that holds us from upgrading to 1.0.
