<b>Resolution:</b>			
<b>Description</b>			
Not intuitive at all, especially if you manage hundred of projects and use intensively the "View all issue" table. It should leave user to "View all issue" page I think.			

#### History

##### #1 - 2010-09-05 03:30 - Jean-Baptiste Barth

- Subject changed from *Deleting an issue from "View all issues" page redirects to its project* to *Some context menu actions in "View all issues" page redirect to issue's project*
- Assignee set to *Jean-Baptiste Barth*

It seems it occurs not only on delete action, but also randomly on other context menu updates. Without any (yet found) pattern.. I'll have a look at that

##### #2 - 2012-06-10 22:42 - Jean-Baptiste Barth

- Assignee deleted (*Jean-Baptiste Barth*)
