<b>Target version:</b>		<b>Affected version:</b>	1.1.3
<b>Resolution:</b>			
<b>Description</b>			
<p>I wonder if "not_a_valid_parent" is missing from all the locale files or not because the following error message showed up.</p> <p>"Parent task translation missing: en, activerecord, errors, models, issue, attributes, parent_issue_id, not_a_valid_parent"</p> <p>This error came up when I made the following operation.</p> <ol style="list-style-type: none"><li>Suppose I have this kind of subtask tickets<ul style="list-style-type: none"><li>130: parent<ul style="list-style-type: none"><li>131: child<ul style="list-style-type: none"><li>132: grandchild</li></ul></li></ul></li></ul></li><li>When I changed 131's parent task from 130 to 132, the above error message appeared.</li></ol> <p>Thanks.</p>

## History

### #1 - 2010-09-06 11:42 - Azamat Hackimov

- Category set to Translations
- Assignee set to Azamat Hackimov

Yes, I hitted to this bug too. But it seems there must be "Circular dependency" exeption from here [source:trunk/app/models/issue\\_relation.rb#L50](https://source.trunk/app/models/issue_relation.rb#L50). I'll check it later.

### #2 - 2011-05-03 01:13 - David Martínez Moreno

Azamat, any update? This is hitting me as well, Redmine 1.1.2.

### #3 - 2011-05-24 15:07 - Etienne Massip

- Target version set to Candidate for next minor release
- Affected version (unused) changed from 1.0.1 to 1.1.3
- Affected version changed from 1.0.1 to 1.1.3

Actually, it can be reproduced very easily by trying to set an issue as parent of itself.

### #4 - 2012-02-29 21:21 - Cassiano Monteiro

Actually, the key `not_a_valid_parent` is missing on the en.yml file (or other localization files).
