Redmine - Defect #6388

New Subproject leads to a 404

2010-09-14 09:42 - Holger Winkelmann

Status:	Closed		**Start date:**	2010-09-14
Priority:	Normal		**Due date:**	
Assignee:	Eric Davis		**% Done:**	0%
Category:	Projects		**Estimated time:**	0.00 hour
Target version:	1.0.2			
Resolution:	Fixed		**Affected version:**	

Description

Adding a New SubProject renders a 404.

- Actual trunk r4083
- Postgres 8.4

Associated revisions

Revision 4095 - 2010-09-17 06:22 - Eric Davis

Fix the new subproject link on project overview. #6388

Contributed by Felix Schäfer.

I've just updated to 4089 and it looks like this is a real issue.

```
Processing ProjectsController#show (for 192.168.0.123 at 2010-09-16 13:36:40) [GET]
  Parameters: {"action"=>"show", "id"=>"add", "parent_id"=>"bat", "controller"=>"projects"}
```

```
Rendering template within layouts/base
Rendering common/404 (404)
Filter chain halted as [:find_project] rendered_or_redirected.
Completed in 47ms (View: 47, DB: 0) | 404 Not Found [http://192.168.0.149/projects/add?parent_id=bat]
```

I hope this is what you mean by log. If anything else could be useful I'll try to post it too.

#5 - 2010-09-16 14:54 - Felix Schäfer

- Assignee set to Eric Davis

- Affected version (unused) set to devel

I've spotted the bug, thanks. There's some (somewhat heavy) refactoring going on in the controllers, and some routes change due to that. For the impatient, the hotfix is quite simple:

```
diff --git a/app/views/projects/show.rhtml b/app/views/projects/show.rhtml
index 0ad9a11..cf3814b 100644
--- a/app/views/projects/show.rhtml
+++ b/app/views/projects/show.rhtml
@@ -1,6 +1,6 @@
 <div class="contextual">
        <% if User.current.allowed_to?(:add_subprojects, @project) %>
-               <%= link_to l(:label_subproject_new), {:controller => 'projects', :action => 'add', :parent_id
 => @project}, :class => 'icon icon-add' %>
+               <%= link_to l(:label_subproject_new), {:controller => 'projects', :action => 'new', :parent_id
 => @project}, :class => 'icon icon-add' %>
        <% end %>
 </div>
```

For the git users among you, the commit can be found [on github](#) too.

#6 - 2010-09-17 06:20 - Eric Davis

- Status changed from New to Resolved

- Target version set to 1.0.2

- Resolution set to Fixed

Fixed in [r4095](#). Thanks for the patch Felix.

#7 - 2010-09-20 05:51 - Eric Davis

- Status changed from Resolved to Closed

Merged into 1.0-stable for release in 1.0.2

#8 - 2010-11-11 16:26 - Roman aka iTUX

redmine 1.0.3 - error still remains

```
Processing ProjectsController#show (for xx.xx.xx.xx at 2010-11-11 17:33:03) [GET]
Parameters: {"action"=>"show", "id"=>"add", "parent_id"=>"documenting", "controller"=>"projects"}
Rendering template within layouts/base
Rendering common/404 (404)
Filter chain halted as [:find_project] rendered_or_redirected.
Completed in 14ms (View: 0, DB: 10) | 404 Not Found [http://redmine/projects/add?parent_id=documenting]
```

#9 - 2010-11-12 20:51 - Gabriel Gomiz

I can confirm that version 1.0.3 has the error. It is weird because I've checked and the patch is applied... :S

#10 - 2010-11-13 09:32 - Felix Schäfer

Make sure you don't have any plugins installed overriding the view with the old/broken link.

#11 - 2010-12-09 14:55 - Charlie Beckett

I can confirm that the projects tree view plugin (http://www.redmine.org/boards/3/topics/4645) needs a subtle tweak to get this working.

Changing the related apps\index.rhtml file, action from 'add' to 'new' got my system up and running.
