Target version:			
Resolution:			

Description

When I add an item as a related issue or subtask that change does not show in the activity list. I think a logical connection like this should show up on the activity list.

e.g.

03:31 pm Infrastructure [#20](#) (new): go faster; a sub task of Feature [#15](#) (new): X

03:31 pm Defect [#21](#) (new): bad bug; is blocking Feature [#15](#) (new): X

(i am running 1.0.1.stable)

History

- #1 - 2011-07-23 17:24 - Etienne Massip**

- Tracker changed from Defect to Feature
- #2 - 2011-07-23 17:25 - Etienne Massip**

- Subject changed from activity report does not include subtask or related issues information to Add subtask or related issues events in activity report

- Category set to Issues
- #3 - 2014-01-23 12:41 - Alexander Stohr**

and option like "notify on all child activitiy" and "notify on all parent activitiy" could be nice. maybe there is the option of extending this to "up to nn levels".
