Redmine - Defect #6419

%Done <= 99 filter not removing row for version that's 100% complete

2010-09-16 21:38 - N G

Resolution:		**Affected version:**	

Description

I have a version that's attached to a subproject of a project. When all the tasks for this version are 100% complete, the Gantt shows a row for this version in spite of a filter on the Done <= 99. All the tasks/bugs for this version have disappeared from the Gantt but I'd think the version itself should also disappear (at least that's what I'm looking/hoping for). Currently, the Gantt is showing really old versions that are 100 complete so there's a lot more data there than needed.
