| <b>Category:</b>  | Issues | <b>Estimated time:</b> | 0.00 hour  |
| <b>Target version:</b>  |        |                        |            |
| <b>Resolution:</b>  |        |                        |            |
| <b>Description</b><br>I am aware that the issue concerning the automatic update of related revisions based on changed comments ( <a href="http://www.redmine.org/issues/1577">http://www.redmine.org/issues/1577</a> ) was considered as a feature and rejected.<br><br>Yet, I think that a manual way to relate revisions to issues is needed. For example, Redmine was down for a week and I need to relate revisions of that week to issues. |        |                        |            |
