Redmine - Defect #6512

Extra "_" on user page?

2010-09-28 02:17 - Be Fio

Status:	Closed	**Start date:**	2010-09-28
Priority:	Normal	**Due date:**	
Assignee:		**% Done:**	0%
Category:	Text formatting	**Estimated time:**	0.00 hour
Target version:			
Resolution:	Invalid	**Affected version:**	

Description

I was looking at an issue here, and some person that posted something on Redmine.org they shouldn't have, and I noticed, that on their activity feed it showed "_wee> * * h3. h1. --+_", but on the actual issue (#5594), it says "wee> * * h3. h1. --+", which appears to be an inconsistency. I reported this just to make sure nothing slips by, since I noticed this.

History

#1 - 2010-09-28 10:08 - Felix Schäfer

- Status changed from New to Closed

- Resolution set to Invalid

This is because the notes on the issue view uses the textile formatting, i.e. stuff between _ s gets *italic*, whereas the activity views shows the raw note, i.e. it's not textilized, which shows the _ s instead of interpreting them.
