Target version:			
Resolution:	Fixed	**Affected version:**	

Description

When the url includes the port of the cvs server (example: :pserver:user:pasword@192.168.7.112:2401/home/cvs) cvs_adapter.rb does not parse the log correctly. The problem is in the following regular expression:

```
if /^RCS file: #{Regexp.escape(root_url.gsub(/^:.*@[^:]+:/, ''))}\/#{Regexp.escape(path_with_proj
ect)}(.+),v$/ =~ line
```

Associated revisions

Revision 1156 - 2008-02-16 19:09 - Jean-Philippe Lang

Fixed: CVS repository doesn't work if port is used in the url (#653).
Added functional tests for CVS adapter.

History
