Redmine - Defect #6550

Filter from main project

2010-10-01 07:43 - Klas Germunder

Status:	Closed	**Start date:**	2010-10-01
Priority:	Normal	**Due date:**	
Assignee:		**% Done:**	0%
Category:		**Estimated time:**	0.00 hour
Target version:			
Resolution:	Cant reproduce	**Affected version:**	

Description

When haveing a main project and subprojects in Redmine and browsing issuses all issues are shown but when a filter is applied all issues from subprojects are removed.

example

Project: HelloWorld
Subprojects of Helloworld: HelloWorld2, HelloWorld3

When browsing issues without filter from HelloWorld project all issues are shown from all three project.
But when adding some kind of filter to the main project issue view all issues from subprojects are removed from list. No matter if they match criteria or not.

History

I cannot reproduce on current trunk, what version are you using? Could you please upgrade if you are not on 1.0 yet, give exact steps to reproduce, list any plugins you have installed (also see SubmittingBugs), or/and even better see if you can reproduce it on http://demo.redmine.org?

#2 - 2010-10-01 09:57 - Klas Germunder

We are currentley using "Redmine 0.9.3.stable (MySQL)" I tested it on the demo site and i am not able to reproduce it there.

#3 - 2010-10-01 11:11 - Felix Schäfer

- Status changed from New to Closed

- Resolution set to Cant reproduce

Ok, then please see if the update fixes this for you, if not, reopen this issue, thanks.
