

Redmine - Defect #6567

can not add user or add a issue

2010-10-04 13:33 - Jeffrey Moncrieff

Status:	Closed	Start date:	2010-10-04
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Issues	Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:	Invalid		

Description

Hello, I have just installed redmine on my development server. I like so far but I have run in to a couple of snags

1. when I try to add a issue I get a Internal server error

Rendering /home/mongrel/redmine/public/500.html (500 Internal Server Error)

Processing IssuesController#create (for 10.2.2.245 at 2010-10-04 07:30:04) [POST]

Parameters: {"commit"=>"Create", "project_id"=>"mwdserp", "action"=>"create", "authenticity_token"=>"o7y/uHQPnt6Q6j7rF4s4j73XhPgS5UWNnETR8p8UQII=", "issue"=>{"start_date"=>"2010-10-04", "estimated_hours"=>""}, "priority_id"=>"1", "done_ratio"=>"0", "assigned_to_id"=>""}, "subject"=>"testing", "category_id"=>""}, "tracker_id"=>"1", "due_date"=>""}, "status_id"=>"2", "description"=>""}, "controller"=>"issues", "attachments"=>{"1"=>{"description"=>""}}}

NoMethodError (undefined method `to_sym' for false:FalseClass):

app/models/user.rb:397:in `notify_about?'
app/models/issue.rb:420:in `recipients'

Environment development

Database adapter mysql

Database schema version 20100819172912

History

#1 - 2010-10-04 14:34 - Jean-Baptiste Barth

Can you try to run rake db:migrate (with the correct RAILS_ENV variable set) and tell us if you get the same issue after that ? I got the same error NoMethodError (undefined method `to_sym' for false:FalseClass): with recent trunk versions : 2 migrations have been added but with the wrong date, so they're not easily visible.

#2 - 2010-10-04 14:53 - Jeffrey Moncrieff

- Status changed from New to Resolved

I did a rake db:migrate and seem to fix the problem, To me it looks like the database schema has changed But I am not a ruby developer I am a Perl/PHP Developer.

#3 - 2010-10-04 15:45 - Felix Schäfer

- Status changed from Resolved to Closed

- Resolution set to Invalid

Yes, migrations are the rails-slang for "database schema updates". All schema updates being incremental, you just need to "apply" the latest migrations to your DB to bring it to the last version, and you should do that after each redmine update. Also see [RedmineUpgrade](#) for more info.

You might also want to have a look at [#6549](#), there's a little snafu in those migrations which might cause certain notification settings to not be migrated properly.
