

Redmine - Defect #66

Closed issue not marked as closed

2007-06-13 10:33 - bajs bajs

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:			
Description In the reports section I don't seem to be able to get any data into the "open" and "closed" columns, even though I have both opened and closed issues. Seems kinda weird since "total" should be "open" + "closed", right? When I press the magnifying glass for one of the tables I see correct counters, except I also have a status "open" and "closed" (in addition to "Closed", "New", etc...) which both show zero. These ones also have no color box next to them. See screenshot.			

History

#1 - 2007-06-13 12:24 - bajs bajs

I've tracked it down to the "closed" => 0 in views/reports/_simple.rhtml and similar files.

In postgresql you need "closed" => "t" for true. I'm not sure what you need for false. "f" wasn't it.

#2 - 2007-06-13 12:27 - bajs bajs

Sorry. It was "f". Unrelated typo.

Do you want a patch for this? I'm not sure how you want to differentiate database engines, and just changing "closed" => 0 to "closed" => "f" will probably break mysql support.

#3 - 2007-06-13 12:51 - Jean-Philippe Lang

Right. This problem was mentioned in the forum: http://rubyforge.org/forum/forum.php?thread_id=14561&forum_id=7505

It was fixed in rev 551.

#4 - 2007-06-13 13:14 - bajs bajs

Ok. I only searched the tracker before submitting. Thanks.
