Redmine - Defect #6612

SortHelper missing from CalendarsController

2010-10-08 22:04 - Felix Schäfer

Status:	Closed		**Start date:**	2010-10-08
Priority:	Normal		**Due date:**	
Assignee:	Eric Davis		**% Done:**	100%
Category:	Calendar		**Estimated time:**	0.00 hour
Target version:	1.0.3			
Resolution:	Fixed		**Affected version:**	

Description

I just tried to show a calendar with a custom query, so something like: http://my.redmi.ne/issues/calendar?query_id=13, which causes redmine to quit on a:

```
NameError (undefined local variable or method `sort_clear' for #<CalendarsController:0x7f4400887b1
0>):
  app/helpers/queries_helper.rb:75:in `retrieve_query'
  app/controllers/calendars_controller.rb:23:in `show'
```

The solution is to include SortHelper in CalendarsController.

Associated revisions

Revision 4245 - 2010-10-10 23:17 - Eric Davis

Add SortHelper so custom queries will run on the Calendar. #6612

History

#1 - 2010-10-09 02:14 - Eric Davis

- Target version set to 1.0.3

Thanks, I'll fix that.

#2 - 2010-10-10 23:12 - Eric Davis

- Category set to Calendar

- Status changed from New to Resolved

- % Done changed from 0 to 100

- Resolution set to Fixed

Fixed in r4245 and added a test case.

No, CalendarsController was refactored in the 1.0.x branch too.

No, [CalendarsController](#) was refactored in the 1.0.x branch too.

ACK ;)

#6 - 2010-11-01 01:22 - Eric Davis

- Status changed from Resolved to Closed

Merged into 1.0-stable for release in 1.0.3
