

Redmine - Feature #6614

icons per tracker for tickets symbol additional or as replacement for ticket type text

Resolution: Duplicate	
Description A nice feature would be able to define an icon per tracker which symbolized the ticket in the tickets views. It could be used additional or as replacement in columns selection or especially in roadmap view for a quick visual understanding which tickets are of what tracker type.	
Related issues: Is duplicate of Redmine - Feature #13297: Adding icons for different trackers New

+1
In Gantt View there is an icon for version already. Is it possible to assign every tracker a specific icon, too?

#2 - 2012-10-09 10:56 - Rodolphe Peterson

I second that. I have 8 columns (including checkboxes), and having icons would, imo, greatly make the table cleaner and improve readability.

#3 - 2013-04-09 12:07 - Daniel Felix

- Category set to UI
- Status changed from New to Closed
- Resolution set to Duplicate

I'm closing this issue in favour of [#13297](#).
This one is the older issue, but [#13297](#) has more details on it. Both issues mean the same.
