History

#1 - 2010-10-11 12:23 - Felix Schäfer

- Category set to UI

I'm not sure if wrapping the tabs is the preferred way, most other tab bars have arrows left an right to navigate them. Anyway, I think it's more than time that we get a nested project menu, and maybe even put it in a left sidebar rather than atop the project.

#2 - 2010-10-11 13:21 - Jean-Baptiste Barth

It's partially related to my request at [#6271](#). +1 for Felix comment anyway, too many tabs at the same level on the top is not so good...

#3 - 2010-10-11 23:09 - Terence Mill

+1 for any solution handling the problem

#4 - 2010-10-12 00:39 - Mischa The Evil

Felix Schäfer wrote:

[...] and maybe even put it in a left sidebar rather than atop the project.

This can be achieved using my [Collapse plugin](#). It has a feature to render the project-menu inside the added sidebar instead of atop of the project.

Note: The plugin isn't compatible with recent Redmine versions. An updated version is on his way... ;)

#### #5 - 2011-03-02 16:11 - Terence Mill

would be nice if this patch can be included in next version. At the momemnt the layout is kind of static and not growing with scrren size.

#### #6 - 2013-04-15 13:55 - Terence Mill

Why is this still nlot fixed?

#### #7 - 2013-04-15 14:05 - Daniel Felix

Another idea would be to create a breadcrumb menu, which lies above the project menu and has more space. But I encounter this misbehaviour too.

I add a relation to [#12789](#).

#### #8 - 2013-04-15 15:01 - Etienne Massip

- Subject changed from Layout defect to Project horizontal menu layout doesn't wrap

- Status changed from New to Confirmed

- Target version set to Candidate for next minor release

#### #9 - 2013-04-15 17:57 - Terence Mill

related to

- Support Nesting Menus [#10773](#)
- Configure order/position and visibility of tabs in menu [#6984](#)
- Advanced menu (main,context) configuration like order, alignment, grouping and behaviour [#10718](#)

#### #10 - 2013-07-23 22:01 - Mischa The Evil

- Has duplicate Defect #14526: Default Theme: Apparent strange behaviour with the main-menu when many submenus are added added

#### #11 - 2013-10-01 06:53 - Toshi MARUYAMA

- Has duplicate Defect #14489: Wrong CSS for large menu added

#### #12 - 2014-03-26 23:45 - Jan S

While a complete overhaul of the menu would be nice, I think applying this little fix in the next minor release would help people right now. Seeing this has been an issue for more than 3 years now, I'd rather like to have a little fix restoring functionality right now rather than waiting for the better "complete overhaul" solution for a possibly long, unknown time.

#### #13 - 2016-12-23 05:39 - Go MAEDA

- Related to Patch #20632: Tab left/right buttons for project menu added

#### #14 - 2016-12-23 05:39 - Go MAEDA

- Status changed from Confirmed to Closed

- Target version deleted (Candidate for next minor release)

- Resolution set to Fixed

Resolved by [#20632](#) in a different solution.

Redmine 3.3.0 has tab left/right buttons in project menu.
