Estimated time: 0.00 hour
Affected version:

Description

The Screenshot attachment:defect.png show the defect.

My fix attachment:fix.PNG :
File: /redmine-root/app/views/layouts/base.rhtml
Add in line 52: <div style="clear: both;"> </div>
Clears the float:left from main-menu / ul / li

<% end %>
+ <div style="clear: both;"> </div>

Edit css:

#header {height:100%; margin:0; padding: 4px 8px 0px 6px; position:relative;}
#main-menu {margin-right: 0px; position: relative; left: 0px;}

History

#1 - 2010-10-11 12:23 - Felix Schäfer
- Category set to UI

I'm not sure if wrapping the tabs is the preferred way, most other tab bars have arrows left an right to navigate them. Anyway, I think it's more than time that we get a nested project menu, and maybe even put it in a left sidebar rather than atop the project.

#2 - 2010-10-11 13:21 - Jean-Baptiste Barth
It's partially related to my request at #6271. +1 for Felix comment anyway, too many tabs at the same level on the top is not so good...

#3 - 2010-10-11 23:09 - Terence Mill

+1 for any solution handling the problem

#4 - 2010-10-12 00:39 - Mischa The Evil

Felix Schäfer wrote:

> [...] and maybe even put it in a left sidebar rather than atop the project.

This can be achieved using my [[PluginCollapse(Collapse plugin]]]. It has a feature to render the project-menu inside the added sidebar instead of atop of the project.

Note: The plugin isn't compatible with recent Redmine versions. An updated version is on his way... ;)

#5 - 2011-03-02 16:11 - Terence Mill

would be nice if this patch can be included in next version. At the moment the layout is kind of static and not growing with screen size.

#6 - 2013-04-15 13:55 - Terence Mill

Why is this still not fixed?

#7 - 2013-04-15 14:05 - Daniel Felix

Another idea would be to create a breadcrumb menu, which lies above the project menu and has more space. But I encounter this misbehaviour too.

I add a relation to #12789.

#8 - 2013-04-15 15:01 - Etienne Massip

- Subject changed from Layout defect to Project horizontal menu layout doesn't wrap
- Status changed from New to Confirmed
- Target version set to Candidate for next minor release

#9 - 2013-04-15 17:57 - Terence Mill

related to

- Support Nesting Menus #10773
- Configure order/position and visibility of tabs in menu #6984
- Advanced menu (main,context) configuration like order, alignment, grouping and behaviour #10718

#10 - 2013-07-23 22:01 - Mischa The Evil
While a complete overhaul of the menu would be nice, I think applying this little fix in the next minor release would help people right now. Seeing this has been an issue for more than 3 years now, I'd rather like to have a little fix restoring functionality right now rather than waiting for the better "complete overhaul" solution for a possibly long, unknown time.

Resolved by #20632 in a different solution. Redmine 3.3.0 has tab left/right buttons in project menu.
