

Redmine - Feature #6631

Provide security (e.g. display only) for custom fields

2010-10-12 05:29 - Xagyg Wulf

<b>Status:</b>	Closed	<b>Start date:</b>	2010-10-12
<b>Priority:</b>	Normal	<b>Due date:</b>

<b>Target version:</b>			
<b>Resolution:</b>	Fixed		
<b>Description</b> It would be nice to be able to assign permissions (update, view) for roles on custom fields.  The most basic requirement for my purposes is that I want to be able to specify some custom fields as display only.

It will be useful for me too. I think this issue could be linked to [#7412](#) (to implement not permissions for roles but "internal" custom fields).

"internal" custom fields  
  
I means not [#4298](#) (internal for plugins) but internal for "Administrators" role etc.

Indeed. This is implemented by [#5037](#).
