

Redmine - Feature #6659

Ability to hide a given ticket-post (for admin/managers by default)

2010-10-13 12:08 - kju kju

Status:	Closed	Start date:	2010-10-13
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Administration	Estimated time:	0.00 hour
Target version:			
Resolution:	Invalid		
Description			
At times you want to			
<ul style="list-style-type: none">• remove a spam comment• merge the relevant info into the ticket description (wiki like)• clear the ticket history to make it more easy to read			
At the moment one can only edit a ticket-post and remove the text.			
Thanks for the consideration.			

History

#1 - 2010-10-13 13:13 - kju kju

Please set to expired/rejected.
If you remove all text, the ticket-post will be removed.

#2 - 2010-10-13 20:49 - Felix Schäfer

- Status changed from New to Closed
- Resolution set to Invalid

Glad you worked that out. There is a request to get a delete button for those, can't remember the ID though.

Having to Remove the text and save an empty box to remove an whole comments seems uncommon ui behavior. A button would be much more clear.
