

## Redmine - Defect #6662

### JavaScript is not minified for production use

2010-10-13 17:18 - Alex Cartwright

<b>Status:</b>	New	<b>Start date:</b>	2010-10-13
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>		<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	Unplanned backlogs	<b>Affected version:</b>	
<b>Resolution:</b>			
<b>Description</b>			
The current JavaScript that Redmine uses in production environment is not minified using a tool such as Google Closure or YUI Compressor. This will dramatically reduce the size of the page a client has to download if it was used.			

#### History

---

##### #1 - 2010-10-13 17:44 - Eric Davis

- *Target version set to Unplanned backlogs*

This would be nice to add but we would need to make sure to track unminified versions in svn/git.

##### #2 - 2010-10-14 17:43 - Alex Cartwright

Sure, what I do is have a \*.src.js and \*.js of my files. When running in a development mode the application simply uses the \*.src.js version instead.
