Redmine - Defect #6663

Bug in CSS of theme "Modula Martini"

Description

When chosing a subproject the parent project is not shown in the title. It appears as "invisible" (it takes space but it is not visible).

I've inspected the CSS and the problem is that Redmine "application.css" contains:

```
#header a {color:#f8f8f8;}
```

This is not overriden in Modula Martini CSS so it matches the background color. The solution is adding the following to Modula Martini's "application.css":

```
#header a {color: #515151;}
```

The HTML code causing this is:

```
<h1><a href="PROJECT_URL" class="root">PARENT_PROJECT_NAME</a> &#187; SUBPROJECT_NAME</h1>
```

- Status changed from New to Resolved

I've have reported this bug to the author of the theme and he will fix it in next release.

Most probably this report makes no sense in this tracker so I close it.
