Target version:			
Resolution:	Wont fix	**Affected version:**	

Description

If i change the default columns displayed on the issue list, at application level,
they appear when i run the queries (View all issues or custom)
but they do not appear in pdf generated by "export to pdf".

the pdf shows the original columns.

do i have to do something special or it really is a bug?

History

#1 - 2008-02-15 14:03 - Daniel Blendea

Steps to reproduce:
By default these columns are displayed:

```
Tracker    Status    Priority   Subject    Assigned to    Updated
```

Then i removed "Tracker" and added "% Done".
Then i went to "Issues" and ran a query.
In web view there was the column "% Done", when i exported to pdf, it wasn't.
Also, i have the "Alternate" theme which shows different backgrounds for each severity.
the colors are not displayed either.

#2 - 2008-02-21 19:09 - Jean-Philippe Lang

- Status changed from New to Closed

- Resolution set to Wont fix

PDF output would be a nightmare to do with dynamic columns.
I think it won't change. Sorry.
