

Redmine - Defect #6694

Bug in project name when create issue by email

2010-10-18 16:13 - Denis Chumachenko

Status:	Closed	Start date:	2010-10-18
Priority:	High	Due date:	
Assignee:		% Done:	0%
Category:	Email receiving	Estimated time:	0.00 hour
Target version:		Affected version:	1.0.2
Resolution:	Invalid		
Description I think you must replace the code in the function Project.find_by_identifier Project.find_by_name otherwise it is impossible to create issues via email in case if the ID is not equal to the name of the project app/models/mail_handler.rb def target_project Project.find_by_identifier change to Project.find_by_name			
Related issues: Has duplicate Redmine - Patch #32522: Add Project.find_by_name to target_project New			

History

#1 - 2010-10-18 16:42 - Eric Davis

- Status changed from New to Closed
- Estimated time deleted (0.15 h)
- Resolution set to Invalid

You need to use the identifier of the project and not the name. See [RedmineReceivingEmails](#) for the documentation.

#2 - 2010-10-18 17:07 - Denis Chumachenko

I think it is not logical to use Project ID . Project manager or the user may not know the Project ID but he knows the name of the project. I think it is best to use the project name in this case.
And you are using in letter field "Project:" not "Project ID:"

but how do you like ... I have to do if a separate patch .. I think that I'm not alone with this problem

#3 - 2019-11-28 03:00 - Go MAEDA

- Has duplicate Patch #32522: Add Project.find_by_name to target_project added
