Please use the forums for questions. The issue tracker is only for actual code issues (bugs, feature requests, ...)

#3 - 2010-10-20 21:58 - Ivan Cenov

- File `httpd-proxy-mongrel.conf` added
- File `vhost.conf` added
- File `patch_for_mongrel.rb` added

Redmine <-> mongrel <-> Apache 2.2.x <-> WEB client

See the attached files and their description.

Next line is copied at the end of `/path/to/redmine/config/environment.rb`

```
Redmine::Utils::relative_url_root = ""
```

My configuration is on Windows, but I think it would work on other OS-es too (it is up to you to prove it :).

Ivan
