

Redmine - Defect #6713

Git: Not able to Resetting Redmine project repository

2010-10-20 18:24 - Gareth Brown

Status:	New	Start date:	2010-10-20
Priority:	Normal	Due date:	
Assignee:	Toshi MARUYAMA	% Done:	0%
Category:	SCM	Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:			
Description			
<p>I've got a problem with a project repository setting in Redmine, in that; I've tried to set a repository with GIT, entered an invalid GIT path, and now I'm stuck as I can't seem to delete the path which has been set.</p> <p>Clicking delete sends me to the next page, stating that the following;</p> <p>Ideally I want to delete this repository reference, and put in a SVN repository instead. I've tried to rejig the system by taking out GIT in the Administration/Settings/Repositories panel, and leaving just subversion. However, this does nothing for the project's stuck GIT repository setting.</p> <p>Help! What file should I edit to delete these project settings? I'm a bit wary, as I don't want my project potentially corrupted.</p>

Associated revisions

Revision 6130 - 2011-06-30 05:46 - Toshi MARUYAMA

scm: return nil at model default_branch and override at git model (#8458, #6713).

Redmine Git and Mercurial adapter support **branches**.

Mercurial default branch is **default**.

But, it is popular to show all revisions on the top page for Mercurial GUI.

Revision 6220 - 2011-07-10 13:08 - Toshi MARUYAMA

scm: git: catch exception in model default_branch() (#8458, #6713).

Revision 6224 - 2011-07-10 17:47 - Toshi MARUYAMA

scm: subversion: add functional test of destroying valid repository (#8458, #6713, #4725).

Revision 6225 - 2011-07-10 17:48 - Toshi MARUYAMA

scm: subversion: add functional test of destroying invalid repository (#8458, #6713, #4725).

Revision 6230 - 2011-07-10 23:47 - Toshi MARUYAMA

scm: catch all exceptions at adapter shellout() to fork scm command (#8510, #6713, #4725, #5404).

If scm command does not exist,
Linux JRuby 1.6.2 (ruby-1.8.7-p330) raises java.io.IOException in production environment.

scm: git: add functional test of destroying invalid repository (#6713, #4725).

History

#1 - 2010-10-20 18:25 - Gareth Brown

Error Message Recieved when trying to delete the invalid GIT repository setup;

An error occurred when trying to access the repository; No such file or directory - git --git-dir "-/" branch

#2 - 2010-10-27 23:26 - Jean-Baptiste Barth

Can you provide the exact error message, the eventual error in the logs, and the informations listed in [\[\[SubmittingBugs\]\]](#) ? Everything works fine on my installations when I try to delete repositories..

#3 - 2011-01-06 12:19 - Toshi MARUYAMA

- Category set to SCM

#4 - 2011-02-06 16:21 - Suleyman Arslan

i have same problem. Actually i don't have git on my system and i am not using git. By mistake i put some directory text on repository settings and save it. Now i am not able to delete repository settings.

When i click Delete button following message appear.

500

An error occurred when trying to access the repository: No such file or directory - git --git-dir "C:\Git-repository\.git/" branch --no-color
