

Redmine - Defect #6728

how to assign global rights?

2010-10-22 22:14 - Albert Rosenfield

Status: Closed	Start date: 2010-10-22
Priority: Low	Due date:
Assignee:	% Done: 0%
Category:	Estimated time: 0.00 hour
Target version:	Affected version:
Resolution: Invalid	

Description

I think you need to add a root project, visible only in the administration part of the UI, to the top of the project tree in Redmine. Or any similar solution.

Otherwise there is no place to assign privileges (using roles) to new users, because new users are not yet part of any project.

Case in question: adding a bunch of users and give them the privilege to create projects (:add_project).

Doesn't work right now, a workaround is to give all users admin rights until they have created their first project, which is not so nice..

History

#1 - 2010-10-22 22:29 - Jean-Philippe Lang

- Status changed from *New* to *Closed*
- Resolution set to *Invalid*

You can give the add project permission to the non member role.

#2 - 2010-10-22 22:37 - Albert Rosenfield

- Status changed from *Closed* to *Reopened*

That would allow EVERYONE to create projects, including all the users that have no place doing so, right?

(Also, mentioned "root" because privileges usually flow downwards when used in a tree of storage locations..)

#3 - 2010-10-22 22:49 - Jean-Philippe Lang

- Status changed from *Reopened* to *Closed*

Yes. Feel free to create a detailed feature request if needed.

#4 - 2010-10-22 22:59 - Albert Rosenfield

How is this one not detailed enough?

#5 - 2010-10-25 16:17 - Albert Rosenfield

- Status changed from *Closed* to *Reopened*

(status: waiting for feedback)

#6 - 2010-11-02 17:47 - Albert Rosenfield

- Status changed to *Closed*

Oh well, I'll just give it my best shot then..

Response to note [#3](#) is in issue [#6800](#) and [#6801](#).
