the same eerror appears with every other link under the /issues controller (so, even with no filters at all).
Don't know if it's related to the redmine core or to some plugin (I can't understand from the log)

The error happens while calling a hook, i.e. in a plugin. Grep through your plugins to see which hooks into view_issues_sidebar_planning_bottom, and that's probably the culprit.

#2 - 2010-11-03 18:01 - Davide Ferrari

- Status changed from New to Resolved

Ok, it's related to the Redmine Backlog plugin. I'll bug them, then :) thanks

#3 - 2010-11-03 19:47 - Felix Schäfer

- Status changed from Resolved to Closed

- Resolution set to Invalid

Thanks for the feedback.
