Redmine - Defect #6777

Revert locale/i18n changes from r4296

Description
r4296 unnecessarily changed page to id for i18n strings pertaining to wiki stuff. That especially breaks the rather semantic oriented nature of the i18n-variable naming used in redmine and should be reverted.

Well, I'm not sure if anything should happen with this one?

The revision is very very outdated. I decide to close this one. If there is still any problem, there would be more feedback on this topic.
