

## Redmine - Patch #6778

### Wiki compatibility link broken w/o project\_id

2010-10-30 12:53 - W Snyder

<b>Status:</b>	Closed	<b>Start date:</b>	2010-10-30

<b>Target version:</b>			
<b>Description</b>			
Recent versions changed from using :id to :project_id for routing. One replacement was missed in a compatibility link; this breaks old links to the wiki pages. This patch to routes fixes it: Thanks.			
routes.rb:			
- map.connect 'wiki/:id/:page/:action', :page => nil, :controller => 'wiki' + map.connect 'wiki/:project_id/:page', :page => nil, :controller => 'wiki', :action => 'show' + map.connect 'wiki/:project_id/:page/:action', :page => nil, :controller => 'wiki'			

### History

#### #1 - 2010-10-30 15:04 - Felix Schäfer

#### #3 - 2011-06-10 14:24 - Etienne Charlier

Hello,  
We upgraded your forge fro 0.8.5 to 1.1.3 and the externals links to wiki pages where broken.

The patch above seem to fix the issue.

Please apply this path !!

Kind regards,  
Etienne

#### #4 - 2011-06-10 14:34 - Etienne Massip

- Target version set to Candidate for next minor release

#### #5 - 2011-10-09 12:25 - roman JProof

Thanx for this Snippet

there is really an broken route.

routes.rb:

for copy paste  
ca. line 237

1. broken route disabled
2. map.connect 'wiki/:id/:page/:action', :page => nil, :controller => 'wiki'
3. enables the correct route  
map.connect 'wiki/:project\_id/:page', :page => nil, :controller => 'wiki', :action => 'show'  
map.connect 'wiki/:project\_id/:page/:action', :page => nil, :controller => 'wiki'

Your post had helped

## #6 - 2011-10-09 13:10 - roman JProof

command back after an short-smile session script above was not usable and doesn't do what i thought.

Short Problem:(i am only an ruby/redmine user)

to create an wiki-page it is not the problem.

To edit it doesn't work, because there isn't the right routing entry inside the route.rb.

to compare line above

```
map.connect 'projects/:project_id/boards/:action/:id', :controller => 'boards'
```

i had changed the wiki line to

```
map.connect 'projects/:project_id/wiki/:page/:action', :page => nil, :controller => 'wiki'
```

it solves the problem

## #7 - 2018-10-02 17:06 - Go MAEDA

- *Status changed from New to Closed*

- *Target version deleted (Candidate for next minor release)*

A long time has passed since the routing changed and no people complain about this recently. Probably few people want this change.

I think we can close this issue.
