**Description**

[r4355](#) (which is the merged [r4354](#), based on [#6766](#)) kills the test suite.

This is because the version controller in 1.0 requires POST for the update action whereas the trunk uses PUT. The test was not changed from the trunk version and thus breaks on 1.0-stable. See [http://ci.finn.de/builds/1-8-7\\_redmine-1-0\\_mysql/4355](http://ci.finn.de/builds/1-8-7_redmine-1-0_mysql/4355)

The attached patch fixes the 1.0-stable branch.
