

## Redmine - Defect #6799

### stack level too deep

2010-11-02 17:11 - Eric Snow

<b>Status:</b> Closed	<b>Start date:</b> 2010-11-02
<b>Priority:</b> Normal	<b>Due date:</b> 2013-08-26
<b>Assignee:</b>	<b>% Done:</b> 0%
<b>Category:</b>	<b>Estimated time:</b> 0.00 hour
<b>Target version:</b>	<b>Affected version:</b>
<b>Resolution:</b> No feedback	

**Description**

Everything was working fine. Our server rebooted and now we are getting the following failure. We had not changed anything or updated anything directly related to redmine, though the failure presumably would indicate that something has changed. (We did a kernel upgrade and some FreeBSD standard library updates). I ran the query directly in sqlite and it worked fine. Thanks.

## History

### #1 - 2010-11-03 11:35 - Felix Schäfer

I've seen some \*BSD-related stack problem on the forum recently, the fix was to up some (kernel-level?) stack size. Have a look around there.

### #2 - 2013-08-19 09:22 - Daniel Felix

- Due date set to 2013-08-26

Any news on this issue? I think this one could be closed.

Please give some feedback in the next week, otherwise I'm going to close this at the 26th August.

**#3 - 2013-08-19 09:22 - Daniel Felix**

- *Status changed from New to Needs feedback*

**#4 - 2013-10-03 15:11 - Jan Niggemann (redmine.org team member)**

- *Status changed from Needs feedback to Closed*

- *Resolution set to No feedback*
