#### History

**#1 - 2010-11-18 19:14 - Jean-Philippe Lang**

- *Status changed from New to Closed*

- *Resolution set to Invalid*

Sorry, we do not provide tech support here.

**#2 - 2010-11-18 20:24 - Holger Just**

Please ask in the forums.

**#3 - 2010-11-22 19:57 - Alexey Aleynikov**

User Paulo Santos gave me the way that fix my problem:

"It seems you made a new dir to host Redmine 1.0.3, but kept the old one... then, accessing your Redmine URL, it keeps saying 1.0.1, right? Did you, by any chance, forgot to update the Apache config to the new location (assuming you're using Apache) ? :)"

Thank to him!!!!!!!
