

Redmine - Feature #7077

Does anyone know about the support for Web Services (XML-RPC, JSON-RPC, SOAP) with Lighttpd?

Description I am looking forward to using Lighttpd as my embedded web server on a device running Linux OS with ARM processor. This would only work out if it supports web services (xml-rpc, json-rpc, SOAP). Also, if anyone could help me with guidance / their personal experience for using Lighttpd with ARM processor systems. Thanks in advance.
