Redmine - Defect #7078

Migration from redmine_subtasks plugin

2010-12-08 14:01 - Dmitry Gurinenko

Status:	Closed		**Start date:**	2010-12-08
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	Database		**Estimated time:**	0.00 hour
Target version:				
Resolution:	Duplicate		**Affected version:**	1.0.2

Description

После установки системы Redmine 1.0.2.stable (MySQL) и восстановления старой базы по всем инструкциям со страницы http://www.redmine.org/wiki/redmine/RedmineUpgrade есть проблемы с отображением некоторых страниц в проектах.

```
Processing IssuesController#index (for ip.add.re.ss at 2010-12-08 14:02:41) [GET]
  Parameters: {"project_id"=>"pt5", "set_filter"=>"1", "action"=>"index", "controller"=>"issues"}
Rendering template within layouts/base
Rendering issues/index.rhtml

ActionView::TemplateError (undefined method `-' for nil:NilClass) on line #16 of app/views/issues/
_list.rhtml:
13:     </tr></thead>
14:     <% previous_group = false %>
15:     <tbody>
16:     <% issue_list(issues) do |issue, level| -%>
17:   <% if @query.grouped? && (group = @query.group_by_column.value(issue)) != previous_group %>
18:     <% reset_cycle %>
19:     <tr class="group open">

Rendering /var/www/redmine/public/500.html (500 Internal Server Error)
```

По поиску мне удалось понять, что проблема может быть из-за того, что на старой системе был установлен плагин **redmine_subtasks**. Сейчас его нет. Если я копирую старую папку этого плагина в vendor/plugins/ новой системы, то на этапе rake db:migrate_plugins RAILS_ENV=production вылазит ошибка:

```
(in /var/www/redmine)
Migrating engines...
Migrating acts_as_activity_provider...
Migrating acts_as_attachable...
Migrating acts_as_customizable...
```

```
Migrating acts_as_event...

History

#1 - 2010-12-08 14:23 - Dmitry Gurinenko

After I install Redmine 1.0.2.stable (MySQL) and restore the old database to the instructions on page
http://www.redmine.org/wiki/redmine/RedmineUpgrade I have a problem with displaying some pages in projects.

...

The problem may be due to the fact that the old system has installed plugin redmine_subtasks. Now it is not. If I copy the old folder of this plug-in vendor/plugins/ folder of new system, then in step rake db: migrate_plugins RAILS_ENV = production climbs I have the error.

...

Help please.

#2 - 2010-12-08 19:59 - Jean-Philippe Lang

- Subject changed from Internal error - 500. to Migration from redmine_subtasks plugin

#3 - 2010-12-15 23:04 - Jean-Baptiste Barth

- Status changed from New to Closed

- Resolution set to Duplicate

Look at #6035, there are some ideas and patches you could try about that. Note that this has also been discussed a lot in other issues where people had a somehow corrupted database after using this plugin and upgrading: #5907, #5874, #5964, etc.

I close this issue as duplicate but encourage you to give a feedback or complete #6035.
