## History

**#1 - 2010-12-10 12:20 - Jean-Philippe Lang**

*- Tracker changed from Defect to Feature*

**#2 - 2010-12-10 12:40 - Jean-Philippe Lang**

*- Target version set to 1.2.0*

The wiki routing was refactored earlier but it doesn't match actual resources, /wiki represents the wiki (a project resource) and the wiki pages.

I propose to map these resources in the following way:

```
/projects/:project_id/wiki        => the project wiki (a single resource)
/projects/:project_id/wiki/pages  => the wiki pages (a collection resource)
```

A route can be added to keep the compatibility for existing URLs that point to a page.
It's a bit late to do these changes for 1.1, the wiki API will be added in 1.2.

*- Target version changed from 1.2.0 to Unplanned backlogs*

Not many requests here and time is missing for 1.2.0.

*- Target version changed from Candidate for next major release to 2.2.0*

**#20 - 2012-10-29 11:34 - Jean-Philippe Lang**

*- Status changed from New to Closed*

*- Resolution set to Fixed*

Wiki pages can now be retrieved, created, updated and deleted through the REST API. See Rest_WikiPages.
Any additional features should be requested in a separate issue.
