**Description**

When entering time against a project without specifying an issue number, I get a 404 error when running on the latest edge version of the code.

The problem seems to have been introduced by [r4461](#): "Adds REST API for TimeEntries ([#6823](#))."

I've been trying to figure out how to solve it but haven't managed to yet.

Sorry, that test wouldn't actually fail before the fix. Now it should.

#3 - 2010-12-14 19:21 - Jean-Philippe Lang

- Status changed from New to Closed

- Resolution set to Fixed

Fixed in [r4511](#), thanks for pointing this out.
