and then i restarted apache

Now i can't see any checkbox in Chrome even if i clean up complete browser history and/or restart chrome. In Firefox the checkboxes (e.g. module selction) are shown all right.

Someone knows what going on here?

Oh my god!

I found a solution!

In fact its a chrome<->WindowsXP Theme - [Know Issue](#)

The solution fixed it for me:

The issue has something to do with the Windows Themes... I managed to fix it saving my Modified Theme (Display Properties), switch back to Windows XP theme, Apply, and then back to my Theme.

Using WIN XP SP3 and Chome 3.0.195.38
