

Redmine - Defect #711

versions: name length limit is too short

Description

The current maximum length for version names is too restrictive, especially in multibyte charsets.

Also, the current logic appears to cut multibyte characters that go over the limit, as in the following Japanese:

orig: testtest
result: testtest

Allow longer version names (#711, closes #712).

History

#1 - 2008-03-09 17:19 - Jean-Philippe Lang

- Status changed from New to Closed
- Resolution set to Fixed

Fixed in [r1220](#). The limit was set in the database to 255 to avoid multibyte chars problems.
