Redmine - Defect #7112

Redmine doesn't work properly with some gems installed

2010-12-15 00:53 - Radek Antoniuk

Status:	Closed	**Start date:**	2010-12-15
Priority:	High	**Due date:**	
Assignee:		**% Done:**	0%
Category:		**Estimated time:**	0.00 hour
Target version:			
Resolution:	Duplicate	**Affected version:**	

Description

If I install i18n gem in version 0.5.0, then Redmine is displaying {{author}} and other template tags instead of correct values, nevertheless that i18n 0.4.1 is installed too.
This is another case when Redmine is going unstable or doesn't start at all when having multiple gems in the environment.
Please use bundler as soon as possible or other method to make Redmine operate correctly in multi-gem and multi-Rails environment, preeeeety please.
